In regard to the possibility of changing Wayne County, Kentucky from Central Time Zone to the Eastern Time Zone, it is the wish of our family that it be changed.

Our community has limited shopping, dining, and entertainment possibilities. Many times we have traveled to Somerset, Kentucky (our closest large city which is on Eastern time) for these reasons--only to have the shops and restaurants closing by the time we get there after a workday.

Also, as parents of two children, we have orthodontist and doctor appointments which are hard to schedule using two different time zones.

Please consider our wish to change to the Eastern Time Zone.

Yours truly,

*Darrell West* *Geri West*
